

Diesel Power Unit DQ-08-PU

Deutz F6L914 Engine 112hp @ 2500rpm

Technical Data

Specifications

Machine Type:	DQ-08-PU
Machine No.:	M-08-KP01
Motor No.:	08818863*
Motor Type:	Deutz F6L914 Tier III
Motor Capacity:	112hp @ 2500 rpm
Pump Type: B Series	Kawasaki Pump K3VL80
Weight:	2'500 kg
Additional Features:	
	<ul style="list-style-type: none">• Dynamic cooling fan, operates only when temperature rises above 50°C• Dynamic throughput adjusting, engine only powers up when needed• Emergency shut-down lever
